

Team Involvement in Demonstration

Date	03 October 2026
Team ID	COMICCRAFT-TEAM
Project Name	ComicCrafter AI – AI-Powered Comic Strip Generator
Maximum Marks	2 Marks

Team Roles

Team Member	Role in Project	Demonstration Responsibility
Anwin Shellman J	Requirements, Streamlit UI and application integration	Introduce problem, show input/style selection and explain end-to-end workflow.
Sivasankar C	Gemini integration, prompt design and panel parsing	Demonstrate six-panel text generation, formatting and validation.
Sivasankaran M	ClipDrop image generation and Pillow comic processing	Demonstrate style-specific images, dialogue overlay and 3×2 assembly.
Nishanth S	PDF output, testing, deployment setup and documentation	Demonstrate PDF download, test cases, limitations and future scope.

Equal Work Distribution

The four members have equal ownership across the solution: each owns a distinct major technical area and an equivalent share of the documentation and demonstration. All members should understand the complete workflow so any member can explain the project end to end.

Coordination

Before demonstration, the team should rehearse the same story prompt, verify both external API keys, confirm six images are produced, and keep a backup output available.
