Customer Journey Map

Phase of Journey	Stage 1: Enter Story	Stage 2: Generate Panels & Images	Stage 3: Review & Export
Actions	Opens ComicCrafter AI, enters a story prompt and selects an art style.	Gemini creates six panel descriptions/dialogues; ClipDrop creates six images; Pillow assembles them.	Views the 3×2 comic strip and downloads the PDF.
Thoughts	“Will my short idea be enough?”	“Will the panels match my story and style?”	“Can I save and share this comic?”
Emotions	Curious / creative	Excited / waiting	Satisfied / ready to share
Pain Points	Unclear prompt may lead to weak scenes.	External AI services may be slow or fail.	Long dialogue may require wrapping; output must remain readable.
Opportunity	Provide clear prompt guidance.	Validate exactly six panels and handle API errors.	Keep layout consistent and provide PDF export.
